Introduction

NAIF ENGINEERING & BUILDERS LTD. is a construction company that was established in 2014. The company constructs Modern Warehouse and Industrial constructions for corporate, commercial and industrial organizations. The combination high-tech machineries, experienced and skilled engineers and workforce ensure the world class quality in construction. NAIF ENGINEERING & BUILDERS LTD. Ltd. believes in 100% customer satisfaction, delivery on time, reasonable price to maintain a long term and profound relationship with clients in business.

The owner of the company Md. Nazmul Haque Khan started his construction business in Middle East from 2004. Having ended up his business over there and gathered lots of experiences in civil engineering sector he returned in Bangladesh to materialize his dreams. Md. Nazmul Haque Khan dreamt of world class constructions and a viable job opportunity in Bangladesh. NAIF ENGINEERING & BUILDERS LTD., is now a well reputed construction organization and expanding its business in abroad.

Mission Statement:

- Providing high quality design & construction services.
- Ensuring quality
- Adapting with latest technological.
- Involving skilled and experienced engineers and workforce.
- Delivering on time.
- Customizing designs with the test of clients.
- Biding commutative price.

Vision Statement:

- Building world class constructions in Bangladesh.
- Creating long term relationship with clients.
- Achieving customer satisfaction.

Expertise:

Even though we are capable of providing all the services we have mentioned, we are expert in the following services:

- Steel Structure Buildings
- Super flat floor
- Polished concrete
- Color concrete

Our Services

- Planning, Drawing & Designing
- High Rise Building Construction
- Project Management
- Industrial & Warehouse Solutions
- Steel Structure Building Construction
- Modern Cold Storage Setup Installation
- Automatic High Racking Storage System
- Roads and Highway Construction
- Bridge & Culvert Construction
- Railway Construction
- Power Plant Construction
- Transmission Line Foundation Construction
- Sub Station Construction
- Water Treatment Plant Construction
- Solar Energy System Installation
- Supply fresh concrete from own portable concrete mixer with pump

Floor Specialist:

- Various type of flooring services
- Industrial Super flat Flooring System
- Color Concrete & Polish Concrete
- High Tolerance Zero Undulation floor
- Joint free construction by laser screed
- Steel fiber concrete flooring system
- SLE, PU, Floor paint & Floor line Marking
- Upgrading narrow aisle floors by laser grinding

Warehouse service:

- Turnkey project
- Construction warehouse
- Textile Denim , RMG, Industrial building construction
- Fabric warehouse design and construction

Foundation & Piling Service:

- Cast-in-Situ Piling
- Pre-Cast Pile Casting
- Pre-Cast Pile Driving
- Mat Foundation Works

High Rise Building Construction:

Construction Company has successfully completed various high rise building projects. As a professional high rise commercial building construction company in Bangladesh, we deliver matchless quality at affordable rates. We have all the necessary experience to provide high rise commercial & residential building construction service in Bangladesh that include, efficient construction plan, lower rates as compared to other companies, timely execution, and quality work. We are well known in the market for both high rise commercial & residential building construction company in Bangladesh.

Types of High-Rise Buildings We Serve:

- Office Buildings
- Commercial Buildings
- Hotel Buildings
- Residential and Apartment Buildings
- Mixed-use Buildings

Road & Highway Construction:

Transport and mobility are a key part of today's society. Roads must be durable and safe otherwise they present a danger to their users and the environment, as well as increasing repair costs. However, because they are exposed to varying extreme conditions it is not easy to construct and maintain strong and durable roads. Also, the quality of components in road products, especially bitumen, can vary widely. Our road construction services help you to understand the behavior of road materials in relation to expected loads and deterioration mechanisms. We have the experience and expertise to test and assess the performance and durability of road materials and products.

Road construction services:

- Assessment and improvement of asphalt properties
- Determination of asphalt component quality and suitability (bitumen, aggregates also secondary)
- Development of new road products, including roll pave and road materials
- Assessment of damage to (overheated) asphalt
- Laboratory testing of bitumen, including composition (PAH and rheology / viscosity)
- Calculations of the CO2 footprints of semi-heated asphalts
- Assessment/testing of expansion joints
- Determination of the maintenance condition of existing roads, drawing up subsequent maintenance / repair plans
- Service life predictions
- Controls of road mixture designs and auditing / inspection of road product application
- We have Expert personnel and a professional laboratory for testing building materials

Piling-Foundation Services:

NAIF ENGINEERING & BUILDERS LTD. Ltd has entered into the piling business equipped with modern machinery and vast capabilities. The company currently owns rotary drilling rigs, several percussion drilling rigs and related equipment as well as a large fleet of cranes, excavators, loaders, and dump trucks to support operations of pilling rigs. We are engaged in offering services related to Piling Construction. Piling is an unavoidable activity for soil improvement operations in concrete structures such as fly over, bridges, industrial structures & multi-storied buildings. We hold proficiency Piling works, for Building, Bridges, Culvert and others.

Our Piling services:

- Pre-cast Concrete Pile
- Cast-in-Palace Concrete Piles
- Sheet Piles
- Sand Piles
- Load Bearing Piles
- End Bearing Piles
- Friction Pile
- Soil Compactor Piles
- Timber Piles
- Steel Piles

Our Foundation Services:

- Mat Foundation
- Pile Cap
- Footing
- Raft Foundation

Transmission Line & Sub Station Civil Works:

All high voltage Transmission line works & Sub-station are done by the Power Grid Company of Bangladesh (PGCB). We take subcontract from the Various Contactor as per rate of individual items or by back to back from some Main Contractor. We serve in Survey, Soil Test, Plan & Profile, Tower Drawing, Foundation Design etc. We do Civil Works like Piling, Pile Cap etc. in addition we do Erection of tower, Stringing works with Testing & Commissioning. Therefore, we can handle the Total job of Transmission Line & Sub Station work alone. NAIF ENGINEERING & BUILDERS LTD. Ltd recently completed Aminbazar to Gopalganj to 400KV Transmission Line projects under PGCB & SEPCO1-MIL JV

Our Transmission Line Services:

- Survey
- Soil Test
- Plan & Profile
- Tower Drawing
- Foundation Design
- Cast-in-situ Piling
- Pile Cap
- Erection Of Tower
- Stringing Works
- Testing & Commissioning

Our Sub Station Services:

- Design & Foundation Drawing
- Civil works of Foundation
- Control Building Construction
- Transformer Foundation
- Equipment Foundation
- Firefighting System
- Cable Trench & Earthing Work
- Erection, Panel, Cable Pulling and Termination etc.

Railway Construction:

We offer our clients a service that helps them plan, build and maintain their railway infrastructure. We have the skills and experience to deliver multi disciplinary turnkey design and construct projects. We work to meet and exceed their needs on time and within budget. We understand the importance of minimizing disruption to their operations while we work. Working on mainline railways, metro systems and light rail, we offer as a group a full in-house solution and provide full design, build, test and commission services in the following areas:

Our Services:

- Mainline Railways Construction
- Metro Systems Construction
- Light Railways Construction
- Railway Station Construction
- Civil, Structural Engineering and Building Construction
- Mechanical, Electrical and Power
- Permanent Way
- Signaling
- Telecoms
- Facade Solutions
- Train on-Board Support Services
- Railway Maintenance Work
- Skill Labor Supply

Iron Solutions Services

- We provide steel structure turnkey project
- Pre-Engineered Buildings Application
- Standard Framing System
- Steel Panel Profile
- Trim & Flashing System
- Accessories
- Steel Structure
- Steel Structure development
- Steel Structure Applications
- Designing
- Manufacturing
- Erection

1. Power Plant Steel Structure

Structures for power plant to house large & heavy and critical equipment's. Project structures are pre-designed and manufactured in a controlled factory environment resulting in higher quality of the building as well as faster construction. The constructions include Turbine buildings, pumping stations, boiler rooms, compressor house and panel control room

2. High Rise Steel Buildings

NAIF ENGINEERING & BUILDERS LTD. can give assistance to the client and their professional team with technical and budgetary advice at the planning stage of the project. Steel parts are pre-engineered to a specific design inside the manufacturing plant and are shipped out, ready to be erected.

3. Portal Frame Structure :

Portal frame structures are designed to span between supports and rely on fixed joints with moment resisting capacity where vertical supports connect to horizontal beams or trusses.

4. Rack Supported Structures

Rack Supported Structures also referred to as Rack Supported Buildings, not only act as an efficient method for storage, but they play double-duty by actually supporting the skeleton of your building. The pallet racking is then covered with skin or walls to protect the interior of your building from outside elements

5. Truss Bridge Structure

A truss bridge is a bridge whose load-bearing superstructure is composed of a truss, a structure of connected elements usually forming triangular units. The connected elements (typically straight) may be stressed from tension, compression, or sometimes both in response to dynamic loads.

6. Arch Bridge Structure

An arch bridge is a bridge with abutments at each end shaped as a curved arch. Arch bridges work by transferring the weight of the bridge and its loads partially into a horizontal thrust restrained by the abutments at either side. A viaduct (a long bridge) may be made from a series of arches, although other more economical structures are typically used

7. Grids Steel Structure

A grid is a structure made up of a series of intersecting straight (vertical, horizontal, and angular) or curved guide lines used to structure content

8. Steel Structures for Hypermarkets & Shopping Malls

Our reliable turnkey construction allows us to complete jobs from start to finish. This includes laying foundation, erecting steel and building out interiors

9. Steel Structures for Automotive Industries

Our reliable turnkey construction allows us to complete jobs from start to finish. This includes laying foundation, erecting steel and building out interiors

10. Steel Structures for Chemical Industries

We erect and install metal decking on projects of any size. Our expert staff specializes in roof and chemical resistant floor decking.

11. Steel Structures for Garments & Textile

NAIF ENGINEERING & BUILDERS LTD. have the manpower, equipment and expertise to erect any type of structural steel or precast concrete structure from miscellaneous support materials to full-scale multi-story buildings.

12. Steel Structures for Apartments & Office Buildings

Steel frame construction offers many advantages over traditional reinforced concrete with lower costs, sustainability and flexibility being amongst the many benefits of choosing steel framed buildings over the alternatives. NAIF ENGINEERING & BUILDERS LTD. have the manpower, experience and equipment that will guarantee your project's success.

13. Steel Structures for Schools & Universities

As Steel structures are an eco-friendly option and can be constructed off-site by professional steel fabricators and then assembled on site it can be the best choice for schools and universities buildings.

14. Steel Structures for Sports Centers & Sport Halls

NAIF ENGINEERING & BUILDERS LTD. have the equipment and experience to take on steel erection projects of all sizes, from commercial spaces to sports arenas

15. Steel Structures for Vehicle Assembly Plant

Steel structures are easy to transport as they are lightweight. Steel structure construction is a safe option, there are no health hazards of using steel structures in construction.

16. Steel Structures for Cold Storage

Buildings fabricated with our insulated metal wall systems experience enhanced thermal-insulating performance and reduced costs of commercial or any type of metal building construction, thus improving the quality, durability, environmental efficiency and affordability of constructing most types of metal building systems

17. Steel Structures for Plastic & Paper Industries

Steel has life cycle advantages over competing materials because of its relatively low energy use, high recyclability, conservation of natural resources and the extensive re-use of by-products.

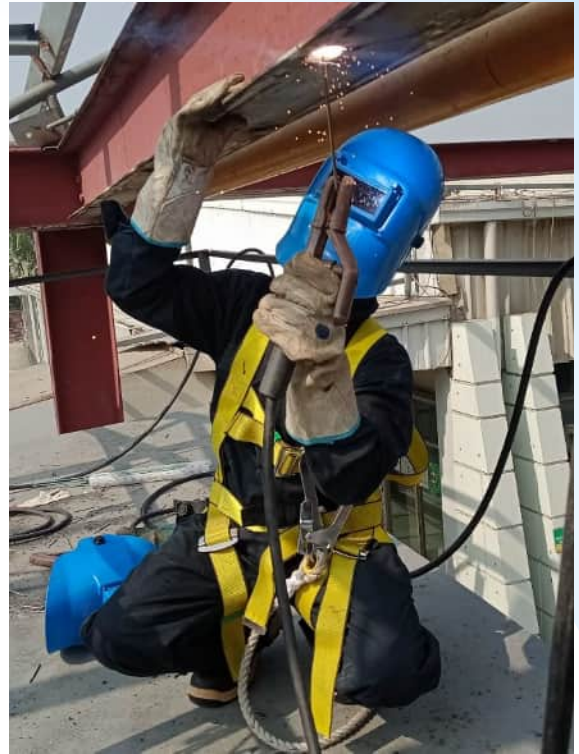

18. Steel Structures for Electronics Industries

Steel is a homogenous material and is subject to documented quality control procedures during manufacture and rolling. The Client can be assured of obtaining reliable and constant quality.

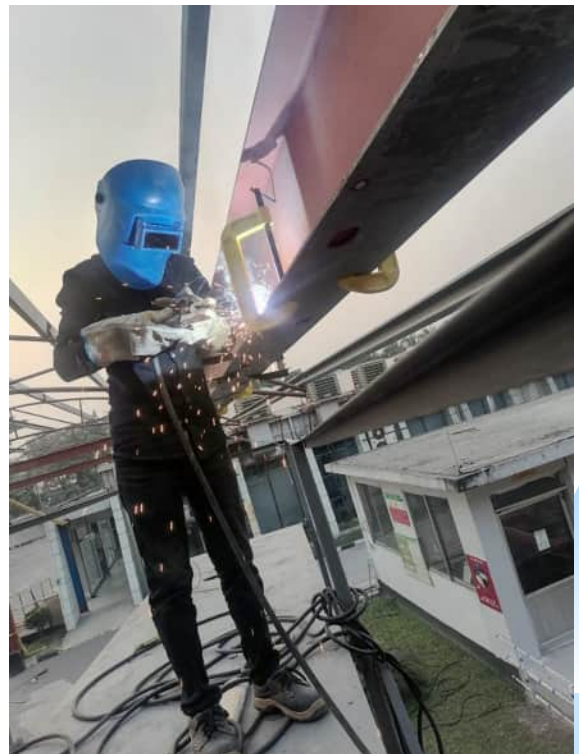

Welding Services

At Naif Engineering Machine Works, we specialize in delivering top-notch welding and fabrication services across various industries. With more than two decades of experience, our skilled team possesses the expertise needed to achieve precise results tailored to your unique project needs.

We Work

- **MIG welding**, also known as Metal Active Gas (MAG)
- **TIG Welding**, also known as Gas Tungsten Arc Welding (GTAW)
- **Orbital Welding**, uses a specialised machine that clamps the tube or pipe to be welded.

Project Summery

Sl No	Clients	Projects	Project details	Place
1	- Ministry Of Science and Technology (Bangladesh) - Bangladesh Atomic Energy Commission - AMT Engineering, CSC	Rooppur nuclear power plant	- RCC road constructing - RCC concrete slab supplying	Rooppur, Pabna
2	Ifad Autos Ltd.	Steel fiber concrete flooring system for car assembly plant	150mm thick & 34000sft steel fiber flooring system 200mm thick sub-base layer .02mm PU water proofing 150mm RCC slab	Dhamrai, Dhaka
3		Brake tester machine installation for car assembly plant for Ashok Leyland (Turnkey Project)	- Planning - Detail drawing and designing - Cost estimating - Managing and supervising the project - Cast in situ piling - Earth moving - Earth filling - Macadam filling compaction - Steel structure designing - Fabricating with epoxy paint - Water proofing with bitumen - RCC flooring with macadam - Floor painting with epoxy - Safety marking - Water draining system	
4		Warehouse for Ashoke Leyland Vehicle cabin construction	- Excavation - Cast in situ piling - Constructing Beam with column and side brick wall for top of beam - Herring bond - Steel structure building designing and fabricating with epoxy paint - Drainage system constructing	
5		Cabin Manufacturin gbuilding construction	- M/S - Steel fabricating - RCC floor constructing

Bangladesh Investment Development Authority (BIDA)

Prime Minister's Office

Registration No : L-20210509003383-H

Dated: 09 May, 2021

1. As per the industrial policy the sub-sector is neither in the reserved list nor discouraged list. Therefore the proposal of the project may be registered on the following conditions:

Investors should be aware that:

(a) They are free to procure infrastructural and other services/utilities (including environment clearance) needed for the implementation and operation of their projects directly from the concerned agencies/departments. Alternatively, the BIDA will also assist investors in obtaining requisite services/utilities from the concerned government agencies/departments on request from your company. In this connection, investors shall have to contact the BIDA Utility services cell.

(b) BIDA is ready to assist/provide a range of services, including advice, information and clarification on a range of investment related issues, government policies procedures and regulations.

(c) The project, eligible for various tax incentives, as articulated in the government's industrial and economic policies and in public notices issued from time to time by relevant government agencies, may obtain copies from BIDA Utility Services Cell.

(d) Certain products are required to conform to standards established by the Bangladesh Standards & Testing (BSTI), prior to marketing. Please check your product standard.

2. Investors shall have to follow/take the under mentioned conditions/measures:

3. You shall have to take necessary safety measures as per Factories Act, 1965.

4. You shall have to import the machinery, spare parts and raw materials as per existing import policy order of the Government.

5. You shall have to arrange sufficient fire fighting equipments as safety measure to the project

6. You shall have to obtain necessary clearance from the Department of Environment before implementation of your project.

7. A half yearly project performance report (PPR) in prescribed format must be submitted on or before 30th June and 31st December every year till the project goes into commercial operation/production. After commencing commercial operation/production an annual PPR must be submitted by 31st December every year through OSS portal.

8. You shall have to arrange preservation of rain water for using in your factory to reduce pressure on ground water.

9. You shall have to take prior permission from BIDA in case of any amendment of this registration letter including ownership or location of the project.

10. Any effluent of the industrial unit should not be discharged into the river connecting lake or general water reservoir without proper treatment

11. You shall have to provide/create the following facilities, if applicable;

(a) Day care center (b) Maternity leaves

(c) Low cost & safe housing facilities for the low paid female works, near & around the establishment

(d) Equal pays & allowance for male & female workers in your organization

(e) Low priced canteen for workers

(f) Enact effective rules of conduct to enable working atmosphere among the male & female workers.

12. You shall not be allowed to do any business/trade other than services at column No. 7 under this registration.

13. You shall have to abide by the guidelines of the government in case of employment of expatriate personnel in your project.

* You shall have to market 80% and export 20% of your products

* You shall have to implement your project within 01 July, 2021

14. As per decision of National Disaster Management Council a disaster response team along with contingency plan will have to be made and required equipment will have to be procured.

The Bangladesh Investment Development Authority reserves the right to cancel the registration of the investment if any of the above conditions or any part of the conditions is violated. You are requested to mention Registration Number in all your future correspondence with BIDA

Subject: LOI for Contract of "Civil Foundation Works for 10 Locations under Aminbazar-Gopalganj 400kV Transmission Line Project."

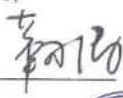

Dear Sir,

With reference to your quotations and further discussion with us, we are pleased to place a LOI on you for the Civil Foundation Works for the "Aminbazar-Gopalganj 400kV Transmission Line Project". The following terms and conditions are as below.

1. Name of work : Civil foundation works for 10 locations.
2. Contract Price : Tk. 2,39,69,005 (Taka Two Crore Thirty-Nine Lac Sixty-Nine Thousand and Five Taka Only). Payment will be made at actual basis.
3. Time for Completion : Whole Facilities shall be completed within 45 days from the day of Issuance of this LOI.
4. Work Program : You should submit a detail work program of the works to the Undersigned within 3(three) days & strictly follow that time schedule of work as mentioned in the time schedule.
5. Instruction : You should abide by all terms and conditions of the original contract that are being executed by you currently

You are requested to proceed with the execution of the work on the basis of LOI.

Sincerely yours,

Ju Tao
Project Manager
SEPCO1-MIL JV.

Sub: Work order of Supply & Application floor hardener for factory building floor at Akij Ceramics Tableware, Trishal, Mymensingh.

Dear Sir,

Reference to the subject mentioned above of your quotation & Rate negotiation with you the management have been pleased to issue a work order of Supply & Application floor hardener for factory building floor at Akij Ceramics Tableware, Trishal, Mymensingh. Only in favor of you with the following rates terms & conditions:

Sl No	Description	Quantity	Unit	Rate	Amount in Tk
1	Supply and Application floor hardener per square meter 4.kg materials including all application tools.	100000	SFT	24.00	2,400,000.00
In word (Twenty Four Lac only)				Total Amount	2,400,000.00

Terms & Conditions:

01. Total Materials will be supplied by Naif Engineering & Builders
02. All necessary tools /Equipment to be supplied by the contractor.
03. For any accident of worker the Contractor will be responsible.
04. Warranty : 05 years warranty from the date of completion of work. Warranty papers will be submit after finished the work. If any types of defects found within warranty period the Naif Engineering & Builders should rectify their own cost.
05. Mode of Payment:
 - a) 30% advance will be paid at the time of issuing work order.
 - b) Running bill may be given for rapid progress of work.
 - c) Final bill may be paid after completion the work satisfactorily.
06. Bill will be paid as per actual volume of work done.
07. Price will be excluding Vat & Tax.
08. The authority reserves the right to cancel the work order partly or in full without mentioning any reason thereof.

GENERAL TERMS AND CONDITIONS

1. Commercial Partner accepts this Order upon receipt of a copy of this Order. Even without a written acknowledgment of receipt of this copy, Commercial Partner's full or partial performance under this Order will constitute acceptance of these terms and conditions. By acceptance of this Order, Commercial Partner agrees to be bound by, and to comply with all the terms and conditions of this Order. These terms and conditions apply to everything listed in this Order and constitute Gildan's offer to Commercial Partner. Terms and Conditions different from or in addition to these terms and conditions, whether contained in any acknowledgment of this Order, or with delivery of any goods or services under this Order, or otherwise, will not be binding on Gildan, unless otherwise mutually agreed to by the parties in writing.
2. All products and services furnished by the Commercial Partner shall be subject to inspection and approval of Gildan after delivery or execution. Gildan shall have the right to reject and return at the risk and expense of the Commercial Partner such portion of any shipment or services, which may be defective, damaged or which fails to comply with the specifications, without invalidating the remainder of this Order. Gildan shall not be obligated to proceed with any such inspection and any such inspection shall not prejudice the rights of Gildan in the event that any damage or non-conforming products or services are not detected upon such examination but rather only at a later time.
3. Commercial Partner understands, agrees and acknowledges that the timely delivery and quality of the products and/or services is of utmost importance to Gildan. Commercial Partner assures that, all products and/or services shall be delivered in accordance with the lead times specified in this Order, and that such products and/or services shall further strictly conform to the specifications. In the event (a) the Commercial Partner cannot or does not deliver the products and/or services ordered by Gildan, or a portion thereof, for any reason whatsoever, or (b) the products and services, or a portion thereof, are rejected for failure to meet the Quality Standards and/or are found to be defective, the Commercial Partner undertakes to (i) replace the products and/or services with conforming goods without additional expense to Gildan; and/or (ii) reimburse Gildan in full for the price paid and all costs associated with the purchasing of replacement products and/or services, including but not limited to taxes, duties, and freight costs; and (iii) reimburse Gildan for any other direct and consequential damages. The parties hereby agree that replacement products and/or services shall be in accordance with the specifications and acceptable to Gildan in its sole discretion and in such cases a specialized third-party will conduct an assessment of the products and/or services.
4. All products and services furnished by Commercial Partner to Gildan shall be delivered with its respective warranties and/or insurances, and shall be new, merchantable and fit for the express purpose for which they are manufactured or supplied, free from defects in materials and workmanship.
5. All products and services supplied to Gildan by Commercial Partner must comply with all relevant, drawings, samples or specifications. Any drawings, samples or specifications provided by or on behalf of Gildan shall remain the exclusive property of Gildan and Commercial Partner shall not reproduce or otherwise use any of same other than for Gildan.
6. These terms and conditions may be modified only by a written document signed by duly authorized representatives of Commercial Partner and Gildan.
7. During the term of this Order, and any time thereafter, Commercial Partner agrees not to divulge, transmit or otherwise disclose, any Confidential Information to any third party in any manner whatsoever without the prior written consent of Gildan. Confidential Information shall mean any and all information Gildan or any of its respective affiliates, disclosed during the negotiations or performance of obligations under this Order, including but not limited to, specifications, samples, patterns, designs, plans, drawings, documents, data, business operations, pricing, discounts or rebates, regardless of whether this information has been identified as being confidential. In addition, Commercial Partner shall treat this Order as confidential and shall not disclose the terms or the existence of this Order to any other person or entity without the prior written consent of Gildan.
8. In addition to any remedies provided herein, Gildan may terminate this Order with immediate effect, either before or after acceptance of products or services, if Commercial Partner has breached any of the Terms herein. If Gildan terminates this Order for any reason, Commercial Partner's sole and exclusive remedy is payment for the products or services received and accepted by Gildan prior to the termination.
9. Commercial Partner shall indemnify and hold Gildan harmless from and against any claims, demands, actions, causes of action, judgments, damages, losses, liabilities, costs or expenses (including without limitation, interests, penalties and reasonable attorneys' or experts' fees and disbursements) which may be made against Gildan or which Gildan may suffer or incur as a result of, arising out of or relating to:
 - (a) any actual or claimed trademark, patent, copyright, or other intellectual property infringement in relation to Commercial Partner's business,
 - (b) any breach, non-performance of or non-compliance with any covenant, agreement or obligation of Commercial Partner under or pursuant to this Order or any negligence of Commercial Partner with respect thereto, and
 - (c) any incorrectness in, or breach of, any representation or warranty of Commercial Partner.
10. Commercial Partner warrants and represents to Gildan that it has and shall maintain in effect all the licenses, permissions, authorizations, consents, and permits required by law to carry out its obligations under this Order.
11. The Commercial Partner is an independent contractor of Gildan. Nothing contained herein shall be construed as creating any agency, partnership, employment or fiduciary relationship. Neither party shall have authority to bind the other party in any manner whatsoever.
12. Time in connection with discounts offered by Supplier shall be computed from the date of delivery or date of receipt of correct invoice, whichever is later.
13. This Order shall be construed and governed in accordance with the laws in force in the State of New York, United States of America. All disputes arising out of or in connection with the present Order shall be finally settled under the Rules of Arbitration of the International Chamber of Commerce by one or more arbitrators appointed in accordance with the said Rules.

TOA CORPORATION BANGLADESH OFFICE

Date: 7 April, 2023
Ref.: TOA-BGD-BRN-2023

To: Naif Engineering & Builders Limited
Attention: Md. Nazmul Khan
Managing Director

Subject: **LETTER OF INTENT FOR SUBCONTRACT WORK**
Civil Works under Home Appliances Plant Construction (Package 2) for Singer Bangladesh Limited

Dear Sir,

Following receipt and review of your quotation dated 30 March 2023, we, TOA CORPORATION Bangladesh Office (hereinafter referred to as "TOA"), are pleased to hereby advise you of our intent, subject to final negotiation and agreement of terms and conditions, to award a Subcontract to you as follows:

1. **Scope of Works:**
Civil Works as detailed in your quotation dated 30 March 2023.
2. **Subcontract Price:**
Bangladesh Taka Three Hundred Five Million One Hundred Fifty-One Thousand Eight Hundred Thirty Only (BDT 305,151,830) including AIT and excluding VAT.

By this Letter of Intent, you are hereby requested to proceed with initial preparatory activities relevant to your execution of the Subcontract Work and complete such works by such times as required by TOA.

This Letter of Intent shall be valid for a period of 45 days from the date given above, subject to any extension advised by TOA to Naif Engineering & Builders Limited.

As you are fully aware, the parties are still finalizing the terms and conditions of the Subcontract, and we are, therefore, not in a position to execute a formal Subcontract agreement at present and pending resolution of these aspects.

This Letter of Intent shall be kept confidential and neither party shall disclose any part of it to any third party other than for the purpose of resolving the outstanding matters or carrying out the authorized activities.

In the event of any dispute or difference arising between the parties from this Letter of Intent, the parties shall by all means possible seek to amicably settle the matter between themselves. Failing the above amicable agreement, such dispute arising out of or in connection with this Letter of Intent, including any question regarding its existence, validity or termination, shall be referred to and finally resolved by arbitration administered by the Singapore International Arbitration Centre ("SIAC") in accordance with the Arbitration Rules of the Singapore International Arbitration Centre ("SIAC Rules") for the time being in force, which rules are deemed to be incorporated by reference herein. The seat of the arbitration shall be Singapore. The language of the arbitration shall be English and the governing law shall be the laws of People's Republic of Bangladesh.

Kindly acknowledge receipt of this Letter of Intent by signing and returning to us the duplicate copy enclosed
